

Acme Township Trail Building Opportunities

Love the land. Pass it on.

Join Grand Traverse Regional Land Conservancy staff and volunteers for trail building opportunities – including trail creation at the proposed Wintergreen Woods Nature Preserve and trail expansion at the Yuba Creek Natural Area. Volunteers will be trained on the proper use of hand tools in the construction of sustainable hiking trails. All tools and gloves will be provided (bring your own favorite pair if desired), but wear sturdy shoes and bring water.

The **Wintergreen Woods** trail project will take place on the GTRLC preserve adjacent to Sayler Park on Yuba Park Rd, Williamsburg, MI. The goal is to create roughly ½ mile of trail connecting to Sayler Park. The terrain is relatively flat which will provide an entry-level trail building experience. If you are interested in trail building, this will be a good opportunity to learn the basics and familiarize yourself with the tools used to build sustainable trails.

The **Yuba Creek Natural Area's** existing trails consist of a formal trail loop on the “top shelf” of the property overlooking the valley with trailhead access off US-31. Another access point from Yuba Road is a trailhead for an “out and back” trail on the valley floor. Connecting the two trail segments will provide users access to the entire trail system from either parking area. Volunteers will help 'cut-in' trail along a steep slope into the scenic Yuba valley and are sure to get an excellent workout!

The Grand Traverse Regional Land Conservancy works to balance public access and use with protecting natural features, unique habitats, and scenic beauty on conservation lands. To help people engage on the land, the Conservancy offers many educational hikes and other events as well as volunteer opportunities throughout the year. We sincerely hope you will join us!
